From the Principal's Desk

Some say wars and nuclear weapons, some say climatic changes; but it is hatred that will make this world end. And no matter where it breeds and who it engulfs at start, it is sure to affect all since no man is an island; all are a piece of the main.

Nothing justifies hatred and terror. Aggression only leads to more problems; there is no solution it offers.

Of course we react to annoying and unfair stimuli. But how to express our displeasure through peaceful ways are the basic skills we must most definitely include as part of learning and practice at home and school. Aggressive behaviour cannot even be seen as an option because once it becomes a habit, excuses for its use will keep changing but the behaviour will not. As adults we must practice democracy at all levels and not control behaviour by creating fear or uncertainty.

It's time we revisit the simple yet powerful lessons of truth and nonviolence and be involved in mankind. We need more Satyarthie's and Malala's to heal the most horrific and ruthless death of humanity.

Let us be inspired to make peace for all.

Mala Jetly

Big News!

Re-launch of the book "The Longest Race" and Book Reading Session by Tom Alter and Cyrus Dastur (25th November):

This day saw the celebration of learning taken to a different level altogether. Renowned film and theatre actor Mr. Tom Alter and founder of the Shamiana Film Club Mr. Cyrus Dastur re-launched the book "The Longest Race" penned by Mr. Tom Alter. A master orator, Tom Alter mesmerized the audience by reading the prologue and some chapters from the book. He was joined on stage by Cyrus Dastur and our student Krishna Desikan who also read out a chapter each from the book. Krishna Desikan's reading was full of confidence and conviction which captivated the audience and impressed the author himself.

The event was also attended by eminent personalities from different fields that included renowned educationalists and social workers Mr. Munawar and Mrs. Mumtaz Peerbhoy, Resident Editor of Sakaal Times Mr. Rahul Chandawarkar, founder of Art India Foundation Mr. Milind Sathe and Principal of Global Indian International School Mrs. Amrita Vohra among others. The occasion was also graced by the Trustees and the Directors of The Orbis School.

Book release of Kavana Anklekar's "Happy House" by Tom Alter (25th November):

One of the brightest authors of The Orbis School, Kavana Anklekar of class 6 is a gifted poet and story writer. Last year she had her own book of poems published. While Kavana wrote the wonderfully innocent, yet extremely insightful poems, her little sister Karunya illustrated the book with her drawings. Kavana's is ready with her second book titled "Happy House" which is a humorous tale entwined with loads of adventure about a family that moves into a house and to their astonishment the house comes alive. This book also includes a short story written by her sister Karunya.

Her book was released by Mr. Tom Alter who was visibly impressed with the writing skills Kavana and Karunya possess at this tender age.

Flavours from our orchard

Junior Orbision and PTM (8th and 15th November):

Junior Orbision with Parent Teachers Meet was an opportunity for the parents to understand progress of their wards. While fruitful discussions between teachers and parents obviated impediment if any, the aesthetic skills were delightful proof of active participation of children in art and craft activities.

The Wheel of A Potter (11th November):

Pottery is one of the best examples to understand dexterity. An NiE Workshop was organized for Pre-primary children (afternoon shift) where a potter, through his works, showed how patience, flexibility, attention and imagination can be worthy traits to shape our lives. Making diyas, flower vases, piggy banks wondered the tiny-tots to a great extent!

Peek Of Picnics (12th and 13th November):

Picnic brings moments to rejoice and rejuvenate ones spirit. Junior and Senior Kindergarten students had a day away from mundane work where they could bond with their friends differently with the spirit of camaraderie. The picnic became a double whammy for the children as they got to see the new school campus and enjoyed exploring it.

Performance With Poise - Orbitheatrum (4th, 5th and 6th December) :

The 5th Annual Cultural Event 'Orbitheatrum' celebrated the joys of childhood. Nursery, Junior and Senior Kindergarten children presented their world of learning through the 'Rhymes', 'Music' and 'Dance' respectively. The little achievers proved to be amazing performers, who enthralled the audience leaving them spellbound. Moreover, the smartness with which they delivered the dialogues in front of the invitees attracted accolades. Eminent personalities, Mr. Deepak Morris, Mrs. Linda O'Conner and Mrs. Vibha Mirajgaoker were the guests of honour.

Solar System (8th - 12th December):

Since early childhood nocturnal sky leaves all of us amazed and curious. New learning about the 'solar family' through movies and stories were found to be great fun. Also, the beautiful head gears made for children were quite informative.

I Grow More, I Know More

National Education Day (10th November):

National Education Day is celebrated every year to commemorate the birth anniversary of Maulana Abul Kalam Azad, the first education minister of India. A peer teaching activity was conducted in the school where, the students in groups, taught their peers under the guidance of their teachers.

National Science Olympiad (12th November):

The students, who had opted for the Science Olympiad, appeared for the test during school hours.

Guest Lecture (13th November):

A guest lecture was delivered by the members of INORA - Institute of Natural Organic Agriculture, for the students of classes 6 - 8. Through a powerpoint presentation, they gave the students an insight on how kitchen waste can be converted into vermicompost which is an easy and effective way of managing kitchen waste. The teachers and students were also given a demonstration on how a vermicompost bin

Orbision (14th November):

Orbision - the Annual Science Exhibition saw active participation from students and parents alike to help develop scientific temper. Keeping in tune with the United Nations' theme of the year, the exhibition displayed, creative models, charts and powerpoint presentations, on 'Family Farming' which was further integrated with related ideas like sustainable development through 'Reduce, Reuse, Recycle' and application of science in our daily lives. The students presented working models of alternate and renewable sources of energy like windmill, hydropower and solar power. In the Robotics arena, the display of different types of working robots created and programmed by the students left the visitors highly impressed. The occasion was graced by chief guests Mrs. Prabha Qureshi a crusader for girl child education and Mr. Rajaram Rao Bannengala, VP - Project Management Institute Pune-Deccan Chapter who lauded the students for their creative skills and scientific acumen. The teachers and students were also given a demonstration on how a vermicompost bin

Trip to Oriental Watchman Publishing House (17th November):

Field trips give students educational experiences away from their regular school environment. The informal hands-on learning, in assorted ways, appeals to varied learning styles, helping children to succeed whether they are visual, auditory or kinetic learners. The students of classes VIII and VII visited The Oriental Watchman Publishing House, situated in the lush green surrounding of The Seven Day Adventist campus at Salisbury Park. The hospitality extended by the staff of the publishing house was overwhelming. The Chief editor Dr Prasad and Mr. Khandgale, V.P. Production, briefed about the rich history and traditions of the publishing house and gave an orientation about the functioning of a publishing house and the roles of various departments. Our heartfelt gratitude to the management of The Oriental Watchman Publishing House for this enriching experience.

Class Picnic (15th – 19th November):

The students of classes 1- 4 had a picnic on the school grounds. While they played many games and enjoyed sharing the meal with one another they also learnt many important lessons in being imaginative, responsible and independent. A change in the everyday routine is always more than welcome.

Participation in National Level Inter-school Robotics Competition at Mumbai (22nd - 23rd November):

Robotics is an integral part of our school curriculum and has been integrated with our Mathematics and Science curriculum. Our students got an opportunity to participate at the National level Tricks Robotics Competition 2014 held by Thinklabs. The event took place at the Euro School, Airoli, Navi Mumbai on 22nd – 23rd November 2014. The theme was 'Mission Rescue' with two categories: Tele Rescuer and Auto Rescuer. The participants had to collaborate in teams and design a robot to solve challenging problem statements. The Junior Team comprised of N.Raghav, Hardit Nirula and Kavana Anklekar from class 6 and the Senior Team comprised of Mihir Dangwal, Nihal Hebbar from class 8 and Vishisht Gautam from class 7. In all 260 schools participated from across India and we are proud to share that our Junior Team qualified to the final round. It was an enriching experience for the students who got a national platform and experiential learning to rise up to challenges.

Nature Club's Trip to a Farm (26th November):

The members of the Nature Club, along with the teachers in charge - Ms. Shahnaaz Faquih and Ms. Amita Singh, visited a farm to see a tubewell and how it can be used as a source of irrigation. There they also saw and identified many herbs and vegetable plants and discussed their utility in our daily life.

Health and Hygiene Club's Initiative Towards Swachh Bharat Abhiyaan (29th November):

The Health and Hygiene Club of the Orbis School installed the first public dustbin on the road leading up to the school premises for the residents of Keshavnagar, as no proper waste disposal facility is available in this area. This is first in a series of many such installments, in our effort to support the Swachh Bharat Abhiyaan launched by the Honourable Prime Minister, Mr. Narendra Modi. The inauguration was done at the hands of the Sarpanch of Keshavnagar Grampanchayat, Mrs. Vandana Kodre.

Mathematics Quiz (1st December):

An Inter-House Mathematics quiz was conducted for classes 1 to 8. The quiz comprised of three rounds for each house. The first being 'Answer at ease', with class specific questions from the syllabus, the second posed visual challenges and the final round went beyond their textbooks though was from their world of knowledge which encouraged them to sharpen their thinking skills. All the four houses gave each other a tough competition.

(For house wise results, please see "I Did It" section)

NiE Workshop (11th December):

A workshop on basics of astronomy was conducted by Mr. Vikram of NiE for the students of classes 7 and 8. The interactive workshop saw discussions on Milky Way, the planets of our solar system and stars of our galaxy. The students also came to know about different types of high power telescopes that is used to study the galactic objects.

Visit to Science Express (19th December):

Science Express is a unique science exhibition mounted on a 16-coach AC train. It has been travelling across India successfully for the past six years. The Science Express is an initiative by the Government of India that aims to create widespread awareness on the unique biodiversity of India, climate change, water, energy conservation and related issues among various sections of the society, especially students. The students of classes 6 - 8 visited the train that had parked at the Khadki Railway Station and gained an insight into the various aspects of the varied Indian biodiversity.

Aarushi B, 3 Sirius

Kashish T, 8 Vega

Orbitheatrums: Classes 1 - 4 (18th - 20th December):

The 5th Annual Cultural Programme brought out the essence of cultural diversity and the rich heritage of the country and beyond. During the three day event, the students of class 1 presented the wonderful untouched paradise of the north eastern states of India. The students of class 2 presented the culture and lifestyle of the Northern states. The students of classes 3 and 4 showcased the SAARC objectives with a slice of life from each SAARC Nation. The event is a great platform for each student to showcase talents and receive appreciation. Mrs. Shilpa Navgire, Mrs. Sharmila Mukherjee and Dr. Jasni Singh graced the occasion and shared their wisdom and experience with the gathering.

Orbisports: Classes 5 - 8 (23rd December):

Sports teaches us that it's good to compete, good to achieve, good to sweat, good to get dirty and tired and feel fit, fine and refreshed. Games and sports makes school life lively, interesting, enjoyable and memorable. The Middle School celebrated its Annual Athletic Meet with a colourful inter-house march-past by the four houses, led by the School Captain and the House Captains. Our PTA members for classes 5 to 8 were our esteemed guests for the occasion. There was a flow of exciting events which followed. The Aerobics display, the power packed performance by our young karate experts and various field and track events filled the air with thrill and excitement with cheers and claps by the students whose hopes were pinned on to their house representatives to lead their house to victory. Every student demonstrated team spirit, confidence and sportsmanship. Scores rose and fell and fortunes swung this way and that way, till Innovators bagged the lead followed by Explorers, Guardians and Vanguards.

Celebration with Compassion (18th – 20th December):

The Orbis School once again hosted Hope For Children Foundation and Tiffin Time from 18th to 20th December. Hope For Children Foundation sold hand made products by single and underprivileged mothers to generate funds for the welfare of their children. Tiffin Time set up a contribution box, the money generated will be used to distribute Christmas Snack Boxes to children from slums.

The Orbis School as part of it's annual Joy of Giving programme set up a counter for parents and students to donate used toys and clothes which were handed over to the Hope for Children Foundation to spread more smiles.

We thank our parents and well wishers for their support in making this Celebration with Compassion a roaring success!

Christmas Celebrations (24th December):

Christmas trees, bells, stockings, goodies and gifts, all tell us that you 'Christmas' is round the corner - time to rejoice, care and share. The classrooms and the school buzzed with excitement, gifts were exchanged and food was shared. 'Santa came to town' visiting each classroom, mesmerizing the children with his antics. The air was filled with cheer and joy.

Overnight Camp (24th December):

The students of classes 4 and 5 had an overnight camp at school which was aimed at enabling students to gain knowledge from practical life skills and community living. Needless to say, the students were exposed to learning sessions with hands on experience from washing their plates to making their beds, managing their belongings and living in conditions with the available sources.

Talent hunt, musical chairs, singing, dancing, showing magic tricks, telling jokes and even making jingles around the bonfire was a new experience for all. The students got a wonderful opportunity to see the planets 'Jupiter' and 'Saturn' through a telescope in the wee hours followed by various fitness exercises, surya namaskar, and other fun games did build a good appetite to eat sumptuous breakfast. Each one went back with great memories. We thank parental involvement in the event.

The Orbis School Pune 2

And the celebration of learning continues at The Orbis School Pune Two

Karate Display Primary (3rd November):

The confidence that comes with knowing how to defend oneself is empowering. Karate lessons at school teach not only self defense but also respect, proper posture, balance, coordination, strength, flexibility, discipline and teamwork. The Orbiens had a formal karate display event where they performed different punches and kicks and showcased their talent, flexibility and energy as they tried to reach their personal best.

Beneath the Blue Pre-primary (7th November):

Beneath the blue was the theme for the Orbiens where they were explained the aquatic life and their environment under water by a short story that unfolded the value of sharing and selflessness. A project on aquatic animals was taken up by the students as a group activity.

Orbision Primary (10th November):

With a view to encourage, popularise and inculcate scientific temper among the children, Orbision - The Annual Science Exhibition, saw the students of class 1 and 2 exhibit some scientific experiments related it to their daily lives.

Class Picnic Pre-Primary (11th and 13th November):

A picnic is more than eating a meal; it is a pleasurable state of mind. To take learning beyond class rooms, students of classes 1 and 2 were taken to the 'Temple of Environment' at Amanora Park Town while the Kindergarteners enjoyed the day playing games, doing creative work and listening to fun stories in the school ground.

National Science Olympiad Primary (12th November):

The students, who had opted for the Science Olympiad, appeared for the test during school hours.

Children's Day Celebration (14th November):

Pt. Jawaharlal Nehru rightly said "Grown-ups have a strange way of putting themselves in compartments and groups. They build barriers... fortunately, children do not know much about these barriers, which separate. They play and work with each other. To keep this spirit of childhood alive a special assembly and an activity filled day was organised for all students.

World Peace Day (17th November):

Orbians had a special assembly on the occasion of world peace day where the teachers staged special play to highlight the importance of LOVE, PEACE, FAITH and HOPE in every life.

Football Final (25th November):

The Inter House Football Tournament kicked off at the school playground with excitement and vigour. The final match was played between Explorers and Innovators. After an immense tussle and some desperate defence by the Explorers, the Innovators managed to break free and score at the last minute.

Inter House Mathematics Quiz (1st December):

The competition fostered greater interest in Mathematics. The topics were related to their syllabus, and included higher order thinking skills as well. All the four houses were equally competitive and the crown of victory was taken away by the Vanguard.

(For house wise results, please see "I Did It" section)

Orbitheatreum (13th December):

The 1st Annual Cultural Programme depicted the need to "Live and let live" through an entertaining theatrical mix of dance and drama. Every student was a part of this experiential journey which took the audience through different phases of harmony between man and nature.

The guest of honour was Dr. Yasmeen Zubery who conveyed the message of good nutrition to the children and congratulated our little Orbian for their message "We do not inherit the Earth from our ancestors, we borrow it from our children".

Christmas Nativity Play- (24th December):

Soaking in the spirit of Christmas, the Orbian celebrated the festival with focus on love, joy and peace. Children enacted the birth of Jesus Christ interspersed with Christmas carols. The Christmas flavour was witnessed beautifully in the classrooms as they were decorated by the students and teachers. The attitude and aptitude of sharing was instilled in the children through fun and share activity conducted by the teachers.

The Orbis School Pune 1 (TOS 1)

Results of Rashtrabhasha Vikas Parishad Essay Writing and Handwriting Competition:

The following students did us proud by being awarded the 'Adarsh Vidyarthi Puraskar' which includes a medal and a certificate:

Lubdhak Mandal of 3 Deneb, **Palak Sanghvi**, **Disha Jain** and **Aditi Singh** of 4 Vega and **Sayli Kodre** of 5 Sirius.

Inter House Results

Events	Vanguards	Innovators	Guardians	Explorers
Orbisports (Classes 5-8)	2	1	4	3
Mathematics Quiz	3	4	1	2

Achievement in Karate(29th November):

Our students performed brilliantly in the International Nobukawa Karate - do Championship held at Sant Dyaneshwar Krida Sankul. Karan Arora of 6 Vega won silver and bronze medals in Kata and Kumite respectively and Esha Agarwal of 8 Vega won bronze medal in kumite. Saksham Thakre of 5 Sirius won the gold medal in Kumite.

Achievement in ABACUS (14 th December):

Shrushti Mahajan of 3 Vega was the first runner-up in the UCMAS Abacus Zonal Competition held in Balewadi Sports Complex.

The Orbis School Pune 2 (TOS 2)

Events	Vanguards	Innovators	Guardians	Explorers
Inter House Football	4	1	3	2
Mathematics Quiz	1	2	2	2

Children's Day (14th November):

Classes 1 to 3 had a special assembly in which the students of 1 Rigel very confidently spoke about why children's day is celebrated and about their favourite Chacha Nehru. They also spoke about personal safety and how to be safe from strangers. The cherry on the cake, however, was a short entertainment programme put up by the teachers of classes 1 to 3 as a tribute for their students on this special day.

CHRISTMAS ASSEMBLY (24th DECEMBER):

The teachers enacted the Nativity play and sang carols in a very special assembly that was staged for the students of classes 1 - 8. The Principal spoke about the spirit of Christmas and wished everyone a joyous festive season ahead.

Sarva Dharma Sabha (18th November):

A special assembly was conducted by class 5 to help understand various religions and their teachings. The sabha focused on knowing a little more and respecting all religions which teach brotherhood, love and compassion.

Impressions and Expressions

Joy of Sharing:

The best and the most beautiful things in the world cannot be seen or even touched they must be felt from our heart. This is the true meaning of Joy of Sharing.

To help a person is to help yourself. My parents and my grandparents tell that it is better to give than to receive. I think that it feels great to help someone in need because there is a blessing in return for me. Joy is one of those rare treasures that is multiplied by giving and sharing.

- Bhargavi Panpaliya, 5 Vega

The Orbision experience for the students:

In Orbision there were many projects done by the students which helped us to learn so much more about science and its application in our daily life. And we also showed our parents how good our new program, Robotics, is. Everybody put in a lot of hard work and I think it was worth it. Our class got the opportunity to showcase the theme of the year 'Family Farming' which was great.

- Akshat Vatal, 6 Vega

We learned a lot of things from Orbision. There was a lot of information on family farming. We also learned how to reuse waste material and how to recycle waste. There were many guests including our parents and we were happy to answer all the questions they asked us.

- Ansh Talwar, 6 Vega

Scouts and Guides at our school:

This year our school started its first session of Scouts and Guides under the guidance of our scout leader Mr. Sagar Balerao. We are learning about the history of scouts and guides and its rules and regulations. I really hope that through this new learning, we will become more responsible and helpful citizens of our nation.

- Darshan Rao, 8 Vega

Class Picnic:

We, the students of class 4, had a picnic on the school ground on the 20th of November. It was an enjoyable day for us as we could play for a long time after sharing our tiffins with our friends. It was also special because the children of all the divisions were together and we could play with them and share our thoughts and feelings with our friends. I liked this day a lot.

- Palak Sanghvi, 4 Vega

We went on a field trip with our teachers to Khadki Railway Station to visit the Science Express. It was a train which had loads of information to share with all of us. It had information on various species of animals and various landforms. There were guides who explained to us about endangered and extinct animal species. We came to know about various species of rare butterflies, deer, etc which are found only in India. The windows of the train had various pictures depicting valuable information. It had various models and quiz to play as well. We enjoyed a lot. It was truly an exciting learning experience for all of us.

-Rajat Saxena, Ansh Talwar, Akshat Vatal 6 Vega

Teachers' Corner

Workshop on self-defence (27th December):

Personal safety is of paramount importance for all. Our in-house karate coach Mr. Devender Sharma conducted a workshop on self-defence for the teachers. It was indeed a helpful session that taught about the basics of self-defence techniques and tips on personal safety was given.

Staff Club Party (27th December):

The month culminated with a staff club get together. The teachers played team games and enjoyed a sumptuous pot luck meal..

Parent's Prerogative

PTA Meeting (1st November):

The PTA Meet touched upon all the agenda points under its ambit with conclusion of discussion on the proposed school fee structure for 2015-16 which stood approved by the house. The Chairman, Ms. Mala Jetly also stressed on greater parental involvement in the process of teaching and learning.

PTM, Classes 1 - 3 (22nd and 29th November):

The parents had a healthy discussion with the teachers about their child's progress and also spoke about the various ways to achieve the common aim of bringing about an overall development in the child.

PTA Meeting (20th December):

A special PTA Meet was organised to share the progress of scholastic and co-scholastic activities and review the approved fee structure in the light of the government guidelines to freeze it for not 1 but 2 years. Inclusion of trousers and track pants for classes 6 to 9 and 1 to 5 respectively was also suggested and approved by the house.

Famous scientists and their inventions

- Evangelista Torricelli (1608-1647) - The famous Italian physicist and mathematician is the inventor of the barometer.
- Charles Babbage (1791-1871) - Babbage is credited with inventing the first mechanical computer that eventually led to more complex designs.
- Conrad Röntgen (1845 - 1923) - This invention allowed the German scientist to win the first Nobel Prize in Physics in 1901.
- Thomas Edison (1847 - 1931) - He has made a large number of inventions, but the most well known one is the electric bulb.
- Emile Berliner (1851 - 1929) - The German-born Jewish American scientist became known for his disc record gramophone.
- Alexander Graham Bell (1857 - 1922) - During the experiments he carried out with the telegraph, Bell came up with the idea of the telephone.
- Rudolf Christian Karl Diesel (1858 - 1913) - Being a mechanical engineer, Rudolf Christian Karl Diesel managed to discover the diesel engine.
- Albert Einstein (1879 - 1955) - He discovered the theory of relativity.
- Thomas Edison (1847 - 1931) - He has made a large number of inventions, but the most well known one is the electric bulb.
- Emile Berliner (1851 - 1929) - The German-born Jewish American scientist became known for his disc record gramophone.
- Alexander Graham Bell (1857 - 1922) - During the experiments he carried out with the telegraph, Bell came up with the idea of the telephone.
- Rudolf Christian Karl Diesel (1858 - 1913) - Being a mechanical engineer, Rudolf Christian Karl Diesel managed to discover the diesel engine.
- Albert Einstein (1879 - 1955) - He discovered the theory of relativity.

From the Editorial Team

"We live in a wonderful world that is full of beauty, charm and adventure. There is no end to the adventures that we can have if only we seek them with our eyes open."

These are the words of Jawaharlal Nehru which holds true for everyone, every day. The year gone by had been an absolutely amazing adventure for all of us at The Orbis School. Our students explored and experimented in multiple arenas and excelled. There were new experiences and new learnings for our young Orbians which made the celebration of learning more exciting and enriching with each passing day!

We wish our readers a very happy new year.

Happy Reading!

Anita Bhattacharjee (Chief Editor)
Seeta Venkateswaran, Sandhya Channa, Amrita Kar (Co-editors)

Thought for the month

The miracle is this, the more we share the more we have.

- Leonard Nimoy
