From the Principal's Desk

We are living in an era of remarkable technological transformation, where Artificial Intelligence (AI) is steadily becoming an integral part of our everyday lives. For our students, it can open new avenues for learning, exploration, innovation, and a deeper understanding of the world around them. Yet, with every new possibility comes a responsibility. The real question is not Can AI do this for me? but rather, How can I use AI to learn better? There is a meaningful difference between using AI simply to produce an answer and using it as a tool to understand a concept. When students allow technology to do all the thinking for them, they may obtain an answer, but in the process, they risk losing the opportunity to develop the very qualities that education seeks to nurture: curiosity, creativity, critical thinking, perseverance, and independent judgement. Judicious use of AI therefore begins with critical thinking and responsible decision-making. Technology may provide information, but it is the learner who must evaluate, interpret, and apply it. At the same time, we must remember that education is fundamentally human. Empathy cannot be automated, character cannot be downloaded, and wisdom cannot be generated by a prompt. The bond between a teacher and a student, the joy of discovery, the exchange of ideas with peers, the perseverance required to overcome challenges, and the invaluable lessons learnt from mistakes are experiences that technology can support, but never truly replace. Our aim, therefore, should be to nurture a generation that is AI-aware, not AI-dependent; technologically skilled, yet deeply human. We want our students to be creators rather than merely consumers of technology, thinkers rather than passive recipients of information, and responsible digital citizens who understand both the possibilities and limitations of AI. As a school community, let us embrace innovation without surrendering our values. Let us encourage our children to use AI as a co-pilot, not an autopilot, a tool that expands their capabilities while keeping their judgement, creativity, curiosity, and conscience firmly in their own hands. We at Orbis prepare our students not merely to navigate a future shaped by Artificial Intelligence, but to shape that future with human intelligence, compassion, integrity, and imagination.

Let AI enhance what we can do, but never diminish who we are.

Smita Pendharkar, Principal

Big News!

A proud and memorable moment for The Orbis School!

Heartiest congratulations to Mr. Haseeb Faquih, Founder Secretary, Wissen Education Society (formerly Orbis Education Society), on receiving the prestigious Lifetime Achievement Award at the MIMAMSA School Awards. Your visionary leadership, dedication, and invaluable contribution to the field of education continue to inspire generations. Here's to celebrating a remarkable journey and an enduring legacy of excellence!

Flavours from our orchard

Orbiloqui and Thinkroom Day (1st-2nd September)

The students of Jr Kindergarten and Sr Kindergarten and their parents enjoyed the annual literary show, “Orbiloqui,” which means “Orbis speaks”. This event was followed by Chrysalis Thinkroom Day. Students had a platform to showcase their literary talents and develop various language skills through storytelling, show-and-tell, recitation, and Thinkroom Day activities. This special event celebrated the students' transformation and growth. It was well-received and highly appreciated by all the parents.

Sneha Kank, CT Jr. KG Apple

Live Station - Animal Homes (7th September)

The little learners had a wonderful opportunity to explore and learn about various farm

animals through a live station. They observed and identified the animals, noting their sounds, diets, young ones, and habitats. The students discovered how farm animals benefit us and understood the importance of caring for and being kind to them. This enjoyable learning experience fostered curiosity and helped our young learners connect with the fascinating world of farm animals.

Naynisha Mourya, CT Sr. KG Orange

Cubs and Homes (7th-11th September)

The week was full of curiosity, excitement, and plenty of adorable animal moments! The students explored the fascinating world of domestic and pet animals, learning about their young ones and the homes they inhabit. Through engaging activities and lively discussions, the children discovered interesting facts about animals and developed a deeper understanding of how to care for them. Their bright smiles and enthusiastic participation made the learning experience truly special. It was a wonderful week of learning, love, and caring for our furry and feathered friends!

Anju Pradhan, CT Sr. KG Mango

Pet Day (11th September)

Our school was filled with excitement, joy, and lots of wagging tails as we celebrated Pet Day with our pre-primary learners! It was a delightful day filled with smiles, laughter, learning, and an abundance of love for our furry and feathered friends. The children had the wonderful opportunity to observe adorable birds and a variety of animals, making the experience both exciting and memorable. Their curious little faces lit up as they watched the animals and learned more about them. The celebration became even more special as parents joined their children and enthusiastically participated in the activities. These shared moments gave children and parents beautiful opportunities to learn, explore, and enjoy together.

Samreen Patel, CT Jr. KG OrangeEdited by Ams

Hindi: My Official Language (14th-18th September)

To celebrate Hindi, one of the official languages of the Union of India, and instill a love for the language, the pre-primary section organised a variety of engaging, age-appropriate activities. Teachers introduced basic Hindi vocabulary using interactive visual aids. Students recited lively Hindi rhymes to enhance their language fluency and enjoyed drawing a colourful "Swar Tree" in their drawing files. The class also held a special assembly featuring speeches and cultural performances that highlighted the significance of the language.

Shamim Salim, CT Sr. KG Apple

Workshop - Good Touch and Bad Touch (16th September)

Students participated in an engaging workshop on Good Touch and Bad Touch conducted by the school counsellor. Through a friendly dinosaur named Tiko and a lively rhyme, the children learnt to understand the difference between safe and unsafe touch in a simple, age-appropriate way. They were encouraged to speak up and immediately tell a trusted adult if anyone made them feel uncomfortable or unsafe. The session helped our young learners understand the importance of personal safety and speaking up without fear, making it an informative and meaningful experience.

Naynisha Mourya, CT Sr. KG Orange

Wild Animals (Young Ones and Homes) (21st-25th September)

Wild animals are fascinating creatures that live in forests, jungles, mountains, and grasslands. The week was dedicated to learning about different wild animals, their habitats, young ones, and food habits. Students explored the topic through various learning modules and colourful books featuring vibrant pictures of wild animals, making the sessions engaging and interesting. They also learnt that some animals are extinct, while others are endangered and need protection and care. A special assembly on the theme of animals further reinforced the concepts discussed in class.

Mariyam Rajani, CT Nursery Apple

Animal Features And Sounds (28th September-1st October)

The Earth is not just our home but also home to countless animals, plants, and other species. Animals are an essential part of our ecosystem, and it is our responsibility to care for and protect them, as they play a vital role in maintaining the balance of nature. Our little Orbians were introduced to the fascinating world of animals, their unique features, movements, and sounds. Through engaging educational videos and fun-filled activities such as Bingo and "Who Am I?", students explored and learnt about different animals in an interactive way.

Sneha Kank, CT, Jr KG Apple

Between the Lines: Can You Crack These Idioms?

I have a part of your body in my name. I mean to reveal a secret accidentally. What am I?

Hint: Imagine a secret escaping before you can stop it.

Answer:Let the cat out of the bag.

I have nothing to do with actual weather. I describe someone extremely happy. What am I?

Hint: Imagine being so happy that you are floating high above the ground.

Answer: On cloud nine

I have a head and a nail, but no carpenter is required. I mean to identify the exact cause of a problem. What am I?

Hint: You get something exactly right.

Answer: Hit the nail on the head

I have a tongue, but I cannot speak. I describe accidentally revealing something that should have remained secret. What am I?

Hint: Imagine saying something by mistake that you had intended to keep to yourself.

Answer: A slip of the tongue

I Know More, I Grow More

Half-Yearly Exams (27th August-11th September)

Examinations teach us more than just subject-related knowledge; they also teach us how to manage time, plan, stay disciplined, and persevere. Through the Half-Yearly Examinations held for Classes 3 to 11, we recognised the significance of effort and determination. The late nights of studying, the sacrifices, and the time spent understanding difficult concepts paid off when the results were announced. It was a rewarding experience to realise that sincere efforts always bear fruit.

Sachita Patil, Student 9 Deneb

Orbiloqui, Think-room Day, Class 2 (8th-9th September)

The school was buzzing with excitement as the students of classes 1 and 2 took the lead for Orbiloqui and Think-room Day. The traditional classroom setup was set aside, allowing the children to run the entire show. From the very first welcome announcement to the final heartfelt vote of thanks, they embraced their roles with enthusiasm. The students brought lessons to life through drama, song, and dance, confidently explaining difficult concepts while conducting their own science experiments. Parents were left speechless by the grace and confidence the students showcased. As the saying goes, "Children are not vessels to be filled, but lamps to be lit." During these activities, the students didn't just shine; they illuminated the entire room.

Sweta Joshi, CT 2 Sirius

International Literacy Day (8th September)

International Literacy Day was celebrated to emphasise the importance of literacy as a basic life skill. Students explored the theme 'Literacy for People, the Planet and Prosperity' and learnt how literacy facilitates learning, effective communication, critical thinking, and informed decision-making. They also explored the significance of digital, media, financial, and environmental literacy. The activity helped students appreciate the value of education and encouraged them to use their learning in positive ways to contribute to society.

Anika Verma, Student 7 Deneb

IBA Competition (17th September)

"हिंदी दिवस: हमारा अभिमान" आईबीए द्वारा आयोजित एक शानदार अंतर-गृह पोस्टर निर्माण प्रतियोगिता का विषय था। इस कार्यक्रम ने हमें न केवल अपनी रचनात्मकता को व्यक्त करने का एक अनूठा मौका दिया बल्कि हिंदी भाषा के महत्व का सम्मान भी किया।गार्डियन्स,एक्सप्लोरर्स,इनोवेटर्स और वैंगार्ड के चारों घरों की भागीदारी अद्भुत थी क्योंकि उन्होंने हिंदी दिवस के विषय पर अपने बोर्डों को स्लोगन,कविता के पंक्तियाँ,अर्थपूर्ण संदेश और तस्वीरों के साथ बेहतरीन तरीके से डिजाइन किया था। परिणामों के लिए 'I Did It' देखें।

Saanvi Chitnis, Student 9 Deneb

Field Trip (19th September)

Connecting with nature and Science is an amazing experience; it not only calms and relaxes our minds but also quenches the curious minds. The students of classes 9 and 10 were grateful to have these unique experiences at Gram Sanskriti Udyan and Pimpri Chinchwad Science Park. At Gram Sanskriti Udyan, our students experienced the life of early village settlements in peaceful environments with colourful and intricate statues, each depicting a unique member and their vocation, with a fascinating lifestyle. On the other hand, the Science Park showcased a world of a variety of galleries such as automobile, energy, climate change, and fun science. These visits helped students understand that development is dynamic and ever-changing. The experiences gained through these visits were truly enriching and memorable.

Afzal Jamadar, Student 9 Rigel

हिंदी दिवस (21st September)

हिंदी दिवस प्रत्येक वर्ष 14 सितम्बर को मनाया जाता है। छात्रों और हमारे हिंदी अध्यापकों के सहयोग से एक उत्कृष्ट 'हिंदी दिवस' आयोजित किया। इस दिन का मुख्य उद्देश्य छात्रों के मनों में राजभाषा हिंदी के प्रति प्रेम और सम्मान पैदा करना था। कार्यक्रम ईश्वर स्मरण से शुरू हुआ फिर एक उत्कृष्ट भाषण हिंदी के विस्तृत शब्दावली और हिंदी के महत्व पर दिया गया। छात्राओं ने दिल को छू लेने वाले दोहे का पाठ किया, जिससे हम सभी को जीवन की गहरी सच्चाई का पता चला।इसके अतिरिक्त शिक्षकों ने हिंदी पर एक उत्कृष्ट पत्र और कविता का पाठ किया। अंत में प्रधानाचार्या जी ने हिंदी पर अपने विचार साझा किये और छात्रों के प्रयासों की बहुत सराहना की।

Yukti Saini, Student 9 Rigel

मेरा भाई

मेरा भाई बड़ा महान, उसमें बस्ती मेरी जान ।
दिन भर करता रहता शैतानी , मेरी फिकर के लिए नही करता आना कानी ।
हरदम मुझे चिढ़ाता रहता , लेकिन माँ की मार से फिर भी बचाता ।
हाथों में राखी बंधवाता, हमेशा मुझे पढ़ाता रहता।
जब भी मैं उदास होती, मेरे पास वह दौड़ा आता ।
सही गलत वह मुझे बताता , जीवन जीने की सीख वो देता।
मेरा भाई बड़ा महान , उसमें बस्ती मेरी जान ।

Sanvi Sawant, Student 7 Sirius

गणेश चतुर्थी

गणेश चतुर्थी हा महाराष्ट्रातील एक प्रसिद्ध सण आहे. या दिवशी आपण गणपती बाप्पाची मूर्ती घरी आणतो. गणपतीची पूजा, आरती आणि प्रसाद केला जातो. सर्वजण आनंदाने हा सण साजरा करतात. गणेशोत्सव आपल्या एकता, आनंद, आणि स्वच्छतेचा संदेश देतो.

Aaima Inamdar, Student 5 Vega

गणपती बाप्पा आले घरी

गणपती बाप्पा आले घरी,
आनंदाची झाली लहरी!
मोदक घेऊन बाप्पा आले,
सुख-समृद्धीसोबत धरती.
मन्नती अवघी धरती,
पाहूयास तुमची कीर्ती.
तुमची येणार सुखलाभावर,
मनात भरली स्फूर्ती.
आतुरता फक्त आगमनाची,
गणपती बाप्पा मोरया!

Aaradya Gaikwad, Student 5 Vega

The Guardian of Nathu La

Nathu La is a famous high-altitude mountain pass in the Himalayas located on the border between India (Sikkim) and China (Tibet) at 14,410 ft. It is part of the ancient Silk Route.

I had the chance to visit this beautiful place during my summer vacation this year. The natural beauty and the towering Himalayas, the snow-capped peaks, and the excellent roads built and maintained by the Indian Army were mesmerising and breathtaking.

What touched me the most was the story of Baba Harbajan Singh, who served in the Indian Army from 1965 to 1968. Even though he died in action in 1968, he keeps protecting and guiding the Indian soldiers. According to local belief, he appears in the dreams of soldiers and tells them about the plans of their enemies. There are two temples in Nathu La dedicated to him. To this day, daily and annual rituals are performed honouring this legendary soldier. Every day soldiers clean his room, polish his shoes, iron his uniform, and make his bed. Every year his belongings are packed and sent to his native place as if he's going on vacation. During the Indo-China border meetings, an empty seat is left for him as a sign of respect. This represents the Indian Army's belief that his spirit remains on duty eternally. Life at 14000 feet can be very challenging. In this situation, any extra support, even if it is in the form of spirit, gives a lot of courage to the soldiers.

Medha Roy, Student 9 Rigel

From Reading to Responsible Thinking

On September 8, The Orbis School, Mundhwa, celebrated International Literacy Day with an engaging initiative aimed at highlighting the importance of literacy in everyday life. Keeping in line with this year's theme, "Literacy for People, the Planet and Prosperity," students took a break from their usual routine of studying and took part in a simple discussion. The students discussed the concept of literacy with their teachers and peers, after which they shared their thoughts and stories. The discussion then moved to an important aspect of literacy. Social-digital-media literacy. The students engaged in a discussion on fake news, and the information that they would see on social media platforms. Through a short quiz conducted by the teacher, the students were encouraged to truly cross check what they would see on social media and other media types. The day ended with the students now well versed in simple methods to cross check information that they got, to remain cautious of Fake News, and the basic concept of literacy.

Maneet Hardik Desai, Student 8 Rigel

My Book – The Barking Basement

I really loved writing my book "The Barking Basement" on the Pre-Books app. The story takes place in a strange basement that makes weird noises, creating a spooky and exciting atmosphere. It is a fun blend of horror, mystery, and humor. While writing it, I enjoyed imagining every mysterious moment and surprising twist. The ending is particularly fun and completes the whole story in a fun way. I am so proud of my book!

Saachi Rathor, Student 6 Vega

Club of the month

Quiz Club, Classes 3-8

The Quiz Club makes learning engaging and informative through weekly quizzes conducted during the CCA period. Students of Grades 3–5 record their responses in quiz notebooks, followed by topic-related videos and drawing activities. In Grades 6–8, quizzes are conducted on Smart Boards using Teachmint, covering topics from the academic calendar and ongoing school activities, thereby reinforcing classroom learning. Current affairs, global events, and significant national and international days are also included to keep students updated with the world around them. The quizzes encourage students to become well-read, knowledgeable, and well-informed while making learning enjoyable.

Aayush Armal, Student 5 Antares

Vedic Math Club, Class 6

Learning Vedic Mathematics as a part of co-curricular activities has been a fun and exciting experience for us students. We have learnt many easy tricks that help us solve calculations faster. We especially enjoy using shortcuts and doing mental calculations. The activities make Maths interesting and less stressful. At first, we thought Maths was only about long calculations, but Vedic Maths showed us that it can be quick, creative, and enjoyable. It has improved our speed, concentration, and confidence with numbers.

Soham Tupone and Soham Walimbe, Students 6 Rigel

Coding Club, Classes 7-9

Coding helps us to learn problem-solving and enhance our critical thinking, so the objective of the club is to develop an understanding of basic coding concepts and build computational thinking and logical reasoning skills. This club enables students to learn basic concepts like algorithms and flowcharts, use the MakeCode platform to get a basic understanding of programming, and create Python programs. Learning programming has helped to develop problem-solving and critical thinking skills. Recently, 8th-grade students made wonderful progress by developing their first game in Python, “Treasure Hunt”. The Coding club is not just a place to learn coding; it also enhances our creativity, innovation, and teamwork and helps us to explore interests in technology. Our facilitators also update us about the latest developments happening in the field of artificial intelligence. “Together we learn, together we code, together we innovate”

Jashvi Shukla, Student 8 Sirius, Prishita Agarwal, Student 8 Rigel

CCA - Display - Etiquettes - Good Manners in Action (18th September)

The students of Class 1 joyfully showcased all that they had learned about good manners during a lively classroom presentation for their parents. Through engaging role-plays and activities, they demonstrated proper table manners, school bus etiquette, and appropriate classroom behavior. They learned the importance of eating well, using polite language, and maintaining good behavior during mealtimes. Their classroom presentation emphasized the value of listening, taking turns, respecting others, and keeping their surroundings tidy. The proud smiles on their parents ' faces made the occasion even more special.

Zarin Sayed, CT 1 Rigel

Facts:“The more we discover, the more we realise how much there is left to learn.”

1. Your Brain Is an Electrical Powerhouse

Neurons communicate through electrical and chemical signals. The brain contains roughly 86 billion neurons, although the number varies slightly among individuals and estimates.

2. Bees Communicate Through Movement

Honeybees use the famous waggle dance to communicate information about the direction and distance of food sources to other bees in their colony.

3. Sharks Are Older Than Trees

Sharks' evolutionary history stretches back more than 400 million years, while the earliest known forests appeared later, around 385 million years ago.

4. Language: The word bookkeeper is notable because it contains three consecutive pairs of double letters.

5. Chemistry: Gallium can melt in your hand because its melting point is about 29.8°C, close to normal body temperature.

6. Animals: A group of flamingos is commonly called a flamboyance.

7. Geography: The Pacific Ocean is larger than the total land area of Earth.

8. Mathematics: A googol is the number 1 followed by 100 zeros

Special Assemblies

Hindi Diwas

हमारी विशेष हिंदी दिवस प्रार्थना सभा

आत्मीयता का प्रतीक, हमारी संस्कृति का आधार। भारत की राजभाषा के प्रति सम्मान व्यक्त करने और हिंदी के महत्व को रेखांकित करने के लिए हर वर्ष 14 सितंबर को हिंदी दिवस मनाया जाता है। इसी अवसर पर द ऑर्बिस स्कूल, मुंढवा में कक्षा 3 से 8 के विद्यार्थियों द्वारा एक विशेष हिंदी प्रार्थना सभा का आयोजन किया गया। कक्षा 6 'वेगा' द्वारा प्रस्तुत इस सभा में विद्यार्थियों ने हिंदी भाषा के प्रति अपने प्रेम, सम्मान और रचनात्मकता को प्रभावशाली ढंग से अभिव्यक्त किया। सभा का शुभारंभ प्राणायाम और 'इतनी शक्ति हमें देना दाता' प्रार्थना से हुआ। इसके बाद प्रतिज्ञा, सुविचार और समाचार प्रस्तुत किए गए तथा हिंदी भाषा के महत्व पर चर्चा की गई। विद्यार्थियों ने 'आत्मीयता' जैसे सुंदर शब्दों के माध्यम से यह संदेश दिया कि मधुर भाषा लोगों के दिलों को जोड़ती है।

सभा को और रोचक बनाते हुए विद्यार्थियों ने हिंदी मुहावरों और लोकोक्तियों, जैसे 'चार चाँद लगाना', 'आँखों का तारा' और 'बीड़ा उठाना', का प्रयोग किया। प्रसिद्ध कवियों की कविताओं और लघुनाटिका 'हिंदी है तो हम हैं' के माध्यम से देशप्रेम, हिंदी के प्रति निष्ठा और अपनी भाषा पर गर्व का संदेश दिया गया। शिक्षकों ने अपने संबोधन में विद्यार्थियों को दैनिक जीवन में सरल और शुद्ध हिंदी का प्रयोग करने तथा अन्य भारतीय भाषाओं का भी सम्मान करने के लिए प्रेरित किया। विद्यार्थियों ने उत्साहपूर्वक भाग लेते हुए हिंदी भाषा, साहित्य और भारतीय संस्कृति के प्रति अपने गौरव को अभिव्यक्त किया। यह विशेष सभा सभी के मन में हिंदी के प्रति सम्मान और आत्मीयता की भावना जागृत करने वाली रही।

Our Green Ways

World Ozone Day Celebration – Global Action for a Cooler Planet

The month featured a series of engaging activities to commemorate World Ozone Day on 16 September. This year's theme, "Global Action for a Cooler Planet," highlighted the importance of collective action to protect the ozone layer while promoting sustainable and energy-efficient cooling solutions. The theme also marked the 10th anniversary of the Kigali Amendment to the Montreal Protocol.

To create awareness among students, the Nature Club conducted an interactive session on the importance of the ozone layer and the causes and effects of ozone depletion. Students participated in poster-making and slogan-writing activities based on the theme.

An Ozone Awareness Quiz was organised across various school clubs, covering ozone depletion, ultraviolet radiation, climate change, sustainable cooling, the Montreal Protocol, and the Kigali Amendment.

These activities encouraged students to expand their environmental knowledge while making learning engaging and interactive. They also helped students understand that protecting the ozone layer and addressing climate change require both global cooperation and responsible individual choices.

Have fun learning French.

La disparition des langues indigènes

Les langues indigènes sont les langues parlées depuis longtemps par les peuples autochtones d'un pays. Elles font partie de leur culture, de leur histoire et de leur identité. Malheureusement, beaucoup de langues indigènes sont aujourd'hui en danger de disparition. La mondialisation et l'usage des langues internationales, comme l'anglais et le français, ont une forte influence sur ces langues. Les jeunes préfèrent parfois parler des langues plus connues et oublient leur langue traditionnelle. Quand une langue disparaît, une partie importante de la culture et de l'histoire d'un peuple disparaît aussi. Il est donc important de protéger les langues indigènes. Les écoles peuvent les enseigner aux enfants et les familles peuvent les utiliser à la maison. Le gouvernement doit également soutenir les communautés autochtones. En conclusion, chaque langue est précieuse et constitue une richesse culturelle.

The Importance of Protecting Indigenous Languages

Indigenous languages are languages spoken for a long time by native peoples. They are an important part of their culture, history, and identity. Unfortunately, many indigenous languages are in danger of disappearing due to globalization and the influence of international languages like English and French. Schools, families, and governments should work together to protect these languages. Every language is valuable and represents the cultural richness of a community.

Umamah Khan, Student 10 Vega

Personality of the month

Manu Bhaker is one of India's most inspiring young sport shooters. Born on 18 February 2002 in Haryana, she discovered shooting at the age of 14 and soon emerged as a remarkable talent.

Her achievements include gold at the 2018 Commonwealth Games and the 2018 Youth Olympic Games. She created history at the Paris Olympics 2024, winning two bronze medals in the women's 10m air pistol and the mixed-team 10m air pistol event with Sarabjot Singh.

Manu Bhaker's success is not merely a story of medals and records. It is a lesson in perseverance. Her journey reminds young people that setbacks do not define us; the courage to rise after them does. Her ability to remain focused under immense pressure demonstrates the importance of discipline, self-belief, and consistent effort.

Her achievements have also contributed to the growing recognition of women in Indian sport. She represents a generation of young Indian athletes who are challenging boundaries and showing that excellence can emerge from determination, hard work, and the courage to dream big. Her ability to overcome setbacks and perform under pressure has made her an inspiration for young athletes across India. Manu Bhaker reminds us that with focus, courage, and perseverance, every target is within reach. Manu Bhaker has shown us that the road to success may have its share of missed targets, but with perseverance, the aim can always be reset, and the next shot can make history.

Virtue Alone Ennobles

Honesty-The Best Policy

Honesty is the first chapter in the book of wisdom.' This is said by Thomas Jefferson. It is considered a virtue because it builds trust, shows integrity, and courage. Honesty is one of the most important virtues because it shows one's truthfulness. Telling the truth may sometimes be difficult, but it helps us build meaningful connections and gives us confidence. One thing to note is that honesty is not just saying whatever comes to your mind, but also being kind. Therefore, we must practise honesty in our words and actions to develop a virtuous character.

Vihaan Kulkarni, 8 Vega

Teachers' Corner

Teacher's Day Celebration (3rd September)

Teacher's Day at Orbis was a heartfelt celebration filled with gratitude, joy, and plenty of surprises. Our students put up a brilliant show, complete with handmade flowers and wonderful performances that made the day truly special. The celebration continued with a sumptuous meal hosted by our Founders, followed by moments of togetherness, laughter, music, and dance. Teachers and colleagues sang along, danced, and simply enjoyed being together. It was a beautiful day dedicated to celebrating the spirit of teaching and the people who make every school day meaningful.

Rini Mathew, CT 8 Vega

Promoting a Safe and Child-Friendly Environment (10th September)

A POCSO Awareness Program was organized by Ms. Rashmi Bari, School Counsellor, for both teaching and non-teaching faculty members, in order to create awareness regarding child safety and legal compliance. The program included the explanation of laws, penalties of non-compliance and an established reporting process. The importance of confidentiality and immediate reporting to the concerned authority was stressed. No independent evaluation, confrontation and approaching the person was to be done by the faculty members. A different workshop for support staff and bus drivers was also organized, which was conducted in Hindi and Marathi languages.

Neha Sharma, CT 10 Vega

समय का महत्व

समय ना रुका है और ना रुकेगा । हर क्षण कीमती चला जा रहा है। तू उठ, अपने कदमों को बढ़ा। साँसे थाम, थोड़ा सोच और मंजिल की पहचान कर आगे बढ़। हर कदम एक हौसला देगा। तू निडर बन और अपनी राह पहचान। उस राह पर तेरा भविष्य आँखें गड़ाए खड़ा है। समय बहुत कीमती है। इसे व्यर्थ के काम में मत खराब करो। समय की कीमत जिसने भी पहचानी है। वही आगे जाकर कामयाब हुआ है।इसीलिए समय को ध्यान में रखते हुए अपनी मंजिल तक पहुंच जाना ही जिंदगी है।

Sushila Kumari, CT 9 Vega

Exploring Knowledge Through Quizzing

Knowledge is a treasure, but practice is the key to it." — Thomas Fuller
Quizzing is an engaging blend of knowledge, curiosity, intellect, and quick thinking. The Quiz Club aims to nurture a spirit of inquiry, encourage active participation, and provide students with a platform to expand their horizons and hone their quizzing skills. Through diverse and stimulating topics such as Rivers of India, Historical Monuments, Current Affairs, Newspaper Reading, Science and Nature, Freedom Fighters, Sports, Space and Technology, and Indian Culture and Heritage, students were encouraged to read widely, share knowledge, think critically, and collaborate with peers. The club fostered confidence, general awareness, healthy competition, and a lasting enthusiasm for learning.

Harvinder Kaur, CT 8 Deneb

Workshop for Middle School Teachers

The session on "Psychological First Aid and Engaging Curiosity in Kids" was conducted by Ms. Rashmi Bari Ma'am, counsellor on the 19th of September. The concept of Psychological First Aid provided valuable insights into understanding and supporting children during difficult situations. The workshop encouraged us to look at children's emotions, questions, and behaviour with greater sensitivity. It emphasized the importance of creating a safe and supportive environment for the children. The session was well-structured and effectively covered important aspects. It has encouraged us to apply these ideas in our interactions with children and support their emotional well-being and curiosity. It was such an informative and impactful session.

Jitendra Korhalkar, ST Information Technology

5 Interesting Facts About Hindi

- Hindi is written in Devanagari — the same script used for several other Indian languages, including Marathi and Sanskrit.
- Hindi is one of the world's most widely spoken languages, with hundreds of millions of speakers in India and around the world.
- Hindi became an official language of the Union of India on 14 September 1949, which is why Hindi Diwas is celebrated every year on 14 September.
- Hindi has absorbed words from many languages — including Sanskrit, Persian, Arabic, Turkish, Portuguese and English, making its vocabulary wonderfully diverse.
- Hindi is rich in literature and expression — from poetry and stories to मुहावरे (idioms) and लोकोक्तियाँ (proverbs), it offers many creative ways to express thoughts and emotions.

Parents' Prerogative

Nutrition Workshop

Conducting the "Smart Food Choices: Beating the Junk Food Trap" nutrition workshop for Class 8 Vega last month was a meaningful and enriching experience. The session focused on how everyday food choices influence energy levels, concentration, and long-term well-being. The students responded enthusiastically, especially to the practical smart swaps—replacing chips with roasted chana or soft drinks with buttermilk. They showed genuine curiosity by asking thoughtful questions and sharing their own eating habits. Seeing them realise that small changes can make a big difference filled me with satisfaction. It reinforced why nutrition education at this age is so important. This session emphasised how small awareness efforts can inspire positive lifestyle changes among young minds.

Dr. Prachee Bohra, Parent 8 Vega

Parent Teacher Meeting (19th September)

The Class 12 PTM focused on critical Half-Yearly performance reviews and attendance tracking ahead of the board exams. The teachers and parents had an interactive session about our academic progress, identifying key areas for improvement and ensuring support during this crucial academic year.

Aradhya Sharma, Student 12 Antares

Mahira Hanure, class 3 Sirius

Krishmika Venkatesh, class 2 Sirius

Anvika Khot, class 5 Siruis

Krishmika Venkatesh, class 2 Sirius

I can do it!

- 1. At what age did Manu Bhaker discover shooting?
- 2. How many bronze medals did Manu Bhaker win at the Paris Olympics 2024?
- 3. Who partnered with Manu Bhaker in the mixed-team 10m air pistol event at the Paris Olympics 2024?
- 4. How does Manu Bhaker's success contribute to encouraging more girls to pursue careers in sports?

From the Editorial Team:

India's Natural Wonders

To the north, the Himalayas Stand, giving tribute to the land,
The Indian Ocean in the south, giving the nation joy and pride,
The Indian peninsula surrounded by ghats,
Creating a border between theirs and ours,
The mangrove trees sprout on the land,
Giving support to the clans.
The climate of the nation changes,
Keeping India safe for ages.
