From the Headmistress's Desk

September is a great time to reflect and appreciate our wonderful teachers. Our Teachers' Day was a day full of smiles, laughter, and joy as we celebrated love and gratitude to the teachers who care about their students every day. There is a special bond between a teacher and a child. It develops through little moments – a warm smile, a helping hand, a comforting word, and the joy of learning and playing together. Teachers understand their students' little worries, celebrate their achievements, and encourage them to do their best.

Teachers make our school a special place. They teach our little ones letters, numbers, stories, and songs, but they also teaches to be kind, helpful, confident, and caring.

Dear children, whenever you see your teacher, remember that a smile, a kind word, or a simple "Thank you" can make your teacher as special as she makes you feel every day.

Big thank you to all our wonderful teachers for making our school a place full of love, laughter, and learning.

Reema Khurana, Headmistress

Big News!

The Orbis Schools have etched yet another proud chapter in their journey of excellence, earning three prestigious awards at MIMAMSA 2026!

Mr Haseeb Faquih, Director of the Orbis Schools, was conferred the Lifetime Award in recognition of his visionary leadership and contributions to the field of education.

Adding lustre to this achievement, Mrs Gunjan Srivastava, Director-Principal of The Orbis Schools, was honoured amongst the Super 30 Inspirational Educators, recognising her inspiring leadership and transformative impact on education.

Flavours from our orchard

OrbiLoqui (2nd & 9th September)

OrbiLoqui, an Annual literary Event was celebrated across two days this September, and the school had a wonderful time watching its youngest learners shine! The first day, 2nd September, of the OrbiLoqi belonged to Sr. KG and Class 1. The event was graced by Mrs. Jayanti Ayyangar, an accomplished educationist as Chief Guest. Class 1 explored the theme of Heavenly Bodies and brought it to life through a Spell Bee, English Storytelling, and Hindi Poem Recitation. Sr. KG had their own set of events — Show and Tell, Story Narration, I the Author, and Rhyme Relay. Parents were there to watch, and the pride on their faces said everything; seeing their children stand up and perform was clearly a moment they will not forget. On 9th September, it was the turn of Playgroup to Jr. KG, and they were no less than the senior public speakers. Dr. Dipika Awachite Findeis, a researcher, author, and educator with rich international experience, graced the occasion as the chief guest. With the theme of Farm and Domestic Animals, the little ones participated in Story Narration, Show and Tell, Rhyme Relay, and Thematic Synopsis. The audience could not stop smiling while watching the tiny ones hold their own on stage so confidently. OrbiLoqui is always a reminder that literacy goes beyond reading and writing. It is about finding your voice, and this September, every child found theirs.

Safe and Unsafe Touch (07th September)

Our Senior KG children took part in a session on “Good Touch and Bad Touch.” Through a short PPT and a simple classroom activity, they learnt about safe and unsafe touch and understood how to speak up when something makes them uncomfortable. With simple examples, students learnt that a good touch makes them feel safe, happy, and comfortable, while a bad touch makes them feel uncomfortable, scared, or unsafe. They were taught that their body belongs to them and that they should always speak up if someone makes them feel uncomfortable. The children also learned the important safety rule words like "No," "Go," and "Tell." They were encouraged to say “NO” whenever they felt uncomfortable and were also taught to move away from an unsafe situation and tell a trusted adult, such as a parent, teacher, or family member. This activity helped our little ones to develop awareness about personal safety, body boundaries and most importantly, they gained the confidence to speak.

Hindi: An Important Indian Language (16th September)

Pre-primary students celebrated Hindi Diwas with great enthusiasm. Hindi Diwas celebration aimed to create awareness and respect for our nation and to introduce our Hindi language to our young learners. Our little ones participated enthusiastically in various activities, including Hindi stories and rhymes. Our students' confident performances brought smiles to everyone’s faces and made the celebration memorable. Teachers explained the importance of Hindi for our little ones. On the same day, Senior KG had an activity of pasting the Swar flashcards on the Tree. Hindi Diwas celebration was a wonderful opportunity for our young learners to understand the importance of this language.

Domestic & Pet Animals (9th September)

A fun and engaging activity on Domestic and Pet Animals was conducted for the Nursery students. The activities helped children learn about different animals, their uses, homes, and the care they need in an enjoyable and hands-on way. They created cute dog faces using craft materials, which helped develop their creativity, imagination, and fine motor skills. The children also used an EVS kit featuring farm animals and their homes. Each animal had a corresponding shadow, and the children had to match the animals to their shadows by sticking them using Velcro. The children also took part in a Milking Cow Activity, where they experienced the process of milking a cow through a fun role-play setup. This activity helped them understand that cows are domestic animals and that we get milk from cows. An Animal Home Live Station was also arranged, where children explored different animal homes such as a kennel, cowshed, stable, coop, and pigsty. The live station allowed them to observe, identify, and connect animals with their respective homes.The children participated enthusiastically and developed love, kindness, and respect towards animals.

Personality of the month

Dr. Sarvepalli Radhakrishnan – The Teacher Who Inspired a Nation

Dr. Sarvepalli Radhakrishnan was a great Indian philosopher, scholar, teacher, and statesman who became the first Vice-President and the second President of India. He was born on 5th September 1888 at Tiruttani in Tamil Nadu. He studied at Madras Christian College, where he specialised in Philosophy and later became a professor at several renowned universities. He received many honours for his outstanding contribution to education and philosophy, including the Bharat Ratna in 1954, India's highest civilian award. His birthday, 5 September, is celebrated as Teachers' Day in India. When his students and friends wanted to celebrate his birthday, he suggested that the day should instead be dedicated to honouring teachers. His life teaches us that true education builds knowledge, character, and good values. Dr. Sarvepalli Radhakrishnan's dedication to learning and teaching inspires every student to study with curiosity, respect their teachers, and use knowledge to make the world a better place.

Wild Animals (Young Ones and Homes) (22nd - 29th September)

Orbis encourages experiential learning, so the class teachers planned fun activities to help children learn about wild animals, their young ones, and their homes. This activity gave a platform for children to have hands-on experience while learning, and also to celebrate learning at the same time. Different activities were planned for different classes. Our Sr.KG children participated in the 'Paper Craft Monkey Activity '. This enhanced their fine motor skills and also creativity and imagination. Jr. KG children made a Paper Plate Fox Activity. They were creative enough to transform the paper plate into a fox face. Using sponge dabbing to make the nose and ears of the fox was fun and a source of learning at the same time. Our little stars from PG and Nursery did a giraffe-making activity. Every child, by the end of the session, had their own paper giraffe. They used colourful craft paper and a lot of their creative skills to complete this activity. Through the activity, they learned about the giraffe, its features, and its natural habitat. These activities helped children to learn about wild animals, their young ones, and natural habitats.

CCA Etiquette Club Display (18th September)

Class 1 had something rather special to show for their Club display, and they showed it with a lot of confidence! The CCA Etiquette Club Display brought together everything the children had been learning and practising over the weeks. Greetings, social, washroom etiquette, dining table etiquette, each one was presented by the children themselves, in their own way. What made it worth watching was how naturally they did it. These were not children reciting lines they had memorised — they were demonstrating habits they had actually picked up. The way they greeted, the way they sat at the table, the way they spoke it all showed. Good etiquette is one of those things that nobody really notices when you have it — but everyone notices when you don't. Class 1 Vega is clearly on the right track!

Special Assemblies

Hindi Diwas Special Assembly (16th September)

14th September holds a special place in India's history—it is the day Hindi was officially declared the national language of India, back in 1949. And at Orbis, that was reason enough to celebrate! The Special Assembly brought the students together for a meaningful morning dedicated to celebrating the Hindi language. Children were taken through the history of Hindi Diwas—when it began and why it matters.

The assembly was full of life—Hindi poems were recited and sung, a word of the day was introduced, children were shown how to use it in a sentence, and a thought for the day was shared that stayed with everyone long after the assembly ended. It was one of those mornings where learning felt natural and joyful. Language is not just words; it is an identity. And the children celebrated that beautifully.

Our Green Ways

Poster Making Activity - Say No To Plastic (23rd September)

Our Pre-Primary students participated in a fun and meaningful Poster Making Activity on the theme “Save Earth from Plastic.” The activity helped our little learners understand the harmful effects of plastic on our environment simply and engagingly. The children used bright colours, pictures, and creative ideas to make beautiful posters with messages such as “Say No to Plastic,” “Use Cloth Bags,” and “Keep Our Earth Clean.” Through this activity, the students learned that small steps like avoiding plastic bags, reusing things, and keeping our surroundings clean can help protect Mother Earth. The activity encouraged creativity, environmental awareness, and responsible habits among our young learners. It was a joyful learning experience where our little ones expressed their love for nature through art and creativity.

Parents' Prerogative

Pet Day (11th September)

Pet Day was celebrated with great excitement and enthusiasm. The day provided children with a wonderful opportunity to learn about pets and understand the importance of caring for and being kind to animals. Students and staff members brought their beloved pets to school, including dogs, cats, and fish. The children were thrilled to see the pets and enjoyed observing their different colours, sizes, features, and behaviours. Teachers guided the children on how to care for pets, feed them, keep them clean, and treat them gently and lovingly. The interaction with the pets made learning about pet animals more meaningful and memorable. The celebration created an atmosphere of joy, curiosity, and compassion. It encouraged children to develop love, kindness, responsibility, and respect towards animals while making beautiful memories with their friends and teachers.

I can do it!

1) When and where was Dr. Sarvepalli Radhakrishnan born?
2) What was Dr. Radhakrishnan's field of study in college?
3) What significant roles did Dr. Sarvepalli Radhakrishnan hold in India?
4) Which prestigious award did Dr. Sarvepalli Radhakrishnan receive in 1954?
5) Why is 5th September celebrated as Teachers' Day in India?

From the Editorial Team:

We Teach What We Are

Teachers' Day comes every year on 5th September. We put up decorations, write thank you notes, and say the things we mean, for which they rarely find time to say on regular days. But here is something worth thinking about beyond the celebration. Every single adult in a child's life is a teacher, whether they have signed up for it or not. A parent interacting on phone with others is teaching something, a grandparent sitting patiently to listen is teaching something. A stranger who holds the door open, is teaching something. A driver who stops at a zebra crossing is also teaching something. Children do not learn only from what we tell them. They learn from what they see us do when we think no one is watching, including and not limited to the way we handle frustration and the way we treat animals on the street. So, this September, as we celebrate the teachers in our lives, maybe we all should also ask ourselves what we are quietly teaching the little ones around us every single day even when we are not their teachers.

Dimple Kumari, CT, Class 1 Vega
